(Qualification and General instruction manual for filling up the online application form)

INDIAN INSTITUTE OF TEACHER EDUCATION

(State Public University established by Government of Gujarat)

**Ram Krushna Paramhans Vidya Sankul, 'Kh'- Road, Near Mahatma
Mandir, Sector-15 Gandhinagar-382016**

Disclaimer:

The Institute has abridged this brochure to facilitate applicants registering for applying various teaching and non teaching posts, 2019, obliging the Act, Statute and Ordinances of the University. However, the optimum care has been taken in drafting this document. In case of any discrepancy, IITE Act, 2010, Statutes and Ordinances stands as final.

From the desk of Vice Chancellor...

Dear Candidate,

Warm greeting from Indian Institute of Teacher Education, Gandhinagar...

It's my pleasure to welcome you as prospective students of IITE, Gandhinagar. IITE is not an Institution but it's a mission to blow the change in scenario of teacher education in general and school education specifically. The education is stimuli to get desired prospects in generations to come, and these generations are real asset to any of the societies, communities and at the end they be Pride of Nation. So, I wish we should undertake such problems to be studied which will benefit the school education directly and national growth and development ultimately. No country can survive without education because the education that we cater will have its existence in future.

Today, we have vision documents for growth and development of our country and I insist Vision Document of Research and Development in area of Teacher Education. The teacher education is a multidisciplinary faculty, it requires the knowledge from various faculties, like; Social Sciences, Philosophy, Art and Culture, Science and Technology, Pedagogy, Andragogy, Language and Literature, Sports and Physical Education, Yoga Science, Scriptures..., I think no corner of the knowledge is left out of the purview of education. For me, it's a faculty like ocean because every river is to submerge into ocean. So, all branches of knowledge amalgamate into one faculty that is education..., I am sure this statement may be a point where I may be objected, but I think this is the point from where the word 'education' will draw attention of the world.

I wish you be aware of challenges in our faculty as well as school education; one of them is inclusive education, these two words seem very simple but the world of education is still working hard to attain this objective. For me Inclusive Education is the path leading to सर्वतो सुखिनो सन्तु...'; but when we are multilingual, multicultural, multi-religious and above all multidimensional country where ethos, traditions, styles, demands... means we are diversified by all means and that too, a motto like 'Inclusive'??? It is a mammoth task and as Indian, I would say we are the people who have shown way in and out to the world. I invite you all to join hands into hands, have collaborative tasks and believe in the best to achieve the ultimate goal of Inclusiveness in real sense, in order to placing our country in the top of the list in our area 'Education'.

No task is unachievable or intangible, if it has been carried out scientifically and rigorously. I wish my dear applicants of this M.A. (Education) shall have the determination of achieving goals of this University through their commitment and knowledge...

Date : 29th May 2019
Place : Gandhinagar

Dr. Harshad Patel
Vice Chancellor

Indian Institute of Teacher Education:

The State Public University: Nurturing Teachers of Tomorrow...

Indian Institute of Teacher Education (IITE), a State Public University established under Gujarat Government Act 8/2010, is the University dedicated to Teacher Education. It is only of its kind in India and in South Asian Countries. **This University was established in an era when the country was in search of alternate to current scenario in Teacher Education. Then Chief Minister of Gujarat, Shri Narendra Modi envisioned the real scenario of teacher education globally.** Shri Modi thought of interdisciplinary institution where school teachers to be nurtured for effective and efficient classroom instructions.

It is believed that the sharing is the power that will generate the knowledge in the 21st Century. In contemporary time, education would not be just UG/PG Degree but multicore development of individual. Looking at the dire need of the society an all-inclusive setup; hence the idea of innovative, residential, integrated degrees was brought in to existence. It is an Indian ethos to sense the best from round of the world and to inculcate them in prospective generations without any kind of discrimination. **Shree Kireet Joshiji, legendary Indian Academician and Philosopher**, made it viable and lead us towards developing curricula for this University. It is a collaborative effort and leading National and International scholars contributed in development of the curricula. The institute has single line motto of nurturing world class teachers who can be exported to the schools across the world. It is the dire need of the time and there is a dearth of good teachers globally. IITE is established with a view to provide skilled teachers.

The skill is a key in process of any kind of knowledge. IITE has made it mandatory so skill and training is integral part of teacher training. We have focused on specific skills to get developed along with schedule programme of curriculum transaction. Communication skills in mother tongue and English, dance, drama (theatre), painting, performing arts, etc. we believe that enhancing professional skills helps learners better employable.
